

SENTINEL / INVESTIGATION REPORT

INV-2026-85B74B55

Public infrastructure review

Status: In progress | Priority: High

Generated (UTC): 2026-09-06T09:21:55.2550069+00:00

CASE SUMMARY

DEMONSTRATION CASE public example inputs only. Review domains and research leads.

FINDINGS

Phone format: Valid E.164-shaped number (not proof of an active line).

Source: Local validation / DNS | Confidence: 100%

Number: +923001234567

Source: Local validation / DNS | Confidence: 100%

Provider status: Carrier, subscriber identity and live location are not available.

Source: Local validation / DNS | Confidence: 0%

Email syntax: Valid syntax; mailbox existence is unverified.

Source: Local validation / DNS | Confidence: 100%

Mail domain: example.com

Source: Local validation / DNS | Confidence: 100%

Domain registration lead: Open the domain registration lookup for manual review.

Source: <https://lookup.icann.org/en/lookup?name=example.com> | Confidence: 0%

Provider status: Breach records and mailbox ownership have not been queried.

Source: Local validation / DNS | Confidence: 0%

GitHub lead: Unverified profile URL; open to review.

Source: <https://github.com/example> | Confidence: 0%

Reddit lead: Unverified profile URL; open to review.

Source: <https://www.reddit.com/user/example/> | Confidence: 0%

Attribution: A matching username does not establish a shared identity.

Source: Local validation / DNS | Confidence: 0%

IP address: 8.8.8.8

Source: Local validation / DNS | Confidence: 100%

Address family: InterNetwork

Source: Local validation / DNS | Confidence: 100%

Registration lead: Unverified IP registration lookup.

Source: <https://rdap.org/ip/8.8.8.8> | Confidence: 0%

Attribution: An IP address alone does not identify a person or precise location.

Source: Local validation / DNS | Confidence: 0%

Domain: example.com

Source: Local validation / DNS | Confidence: 100%

Registration lead: Unverified registration lookup.

Source: <https://lookup.icann.org/en/lookup?name=example.com> | Confidence: 0%

DNS address: 104.20.23.154

Source: Local validation / DNS | Confidence: 100%

DNS address: 172.66.147.243

Source: Local validation / DNS | Confidence: 100%

EVIDENCE / SHA-256

pixel.png

Source: Synthetic test fixture; not real investigation evidence

LIMITATIONS

Public-source URLs are leads, not verified accounts. Format validation does not establish identity. Hash verification establishes byte consistency, not authenticity. EXIF can be edited; OCR requires a configured local engine. See evidence metadata for extraction status. This PDF uses ASCII text; original Unicode values remain in the database and app.
